Keep walls looking fresh with this simple cleaning guide

Johnstone's Trade Cleanable Matt contains Easy Clean Technology which helps to keep the painted surface looking fresh. The innovative binder technology prevents stains from seeping into the paint surface, making cleaning easier.

Follow these simple instructions to help walls stay looking clean:

5 Easy Steps to maintain Cleanable Matt

- 1 Always use soft cloths or sponges.
- 2 Always clean with mild detergents or a soap solution.
- 3 Use smooth circular motions with light pressure.
- 4 Clean beyond the stained/soiled area.
- 5 Always rinse with clean water and wipe dry to leave the surface clean and free from smears.

What to avoid

- ❌ Avoid using abrasive or concentrated cleaning agents.
- ❌ Do not use rough textured cleaning pads or cloths.
- ❌ Avoid cleaning with heavy pressure and in small isolated areas.

Keep your reputation spotless with **Johnstone's Trade Cleanable Matt**
